Custom or Directed Sponsorships

Work with our team to design and implement a custom sponsorship package that can be mutually beneficial. Please visit our [sponsorship link](#) or email us to discuss these opportunities at electriccitymakerfaire@gmail.com

About the Electric City Mini Maker Faire

Sponsoring the [Electric City Mini Maker Faire](#) is a unique opportunity to support our creative community and help build the network of creatives and innovators in the Capital District. The event is free, open to the public, and will have a variety of exhibitors to display their work and host demonstrations, workshops and hands-on activities. We will have a broad range of participants from Union College, the Schenectady community and the Capital District. The Faire brings together faculty and students, local makers, small businesses, high school STEAM programs, First Robotics, local Maker Spaces and many others to make it a well-rounded event that promotes making, hands on learning, STEAM education and the local community.

Maker Faire is the Greatest Show (and tell) on Earth—a family friendly showcase of invention, creativity, and resourcefulness, and a celebration of the Maker movement. It's a place where people share what they are making and learning. Makers range from tech enthusiasts to crafters, educators, tinkerers, hobbyists, engineers, artists, science clubs, students, authors, and commercial exhibitors. They are of all ages and backgrounds. Maker Faire's mission is to entertain, inform, connect and inspire these thousands of Makers and aspiring Makers. [Maker Faire](#) originated in 2006 in the San Francisco Bay Area as a project of the editors of [Make: magazine](#). It has since grown into a significant [worldwide network](#) of both flagship and independently produced events.

The Electric City Mini Maker Faire is a growing force in the New York Maker Movement, connecting individuals and organizations around the Capital District and beyond. Sponsors reach thousands of people and are associated with a diverse and engaged audience including local businesses, local makers and community organizations. Sponsors help support a growing network of creatives and inventors and contribute to a thriving DIY maker movement. Please visit our [sponsorship link](#) or email electriccitymakerfaire@gmail.com for more information on how to get involved.
